BRDEC182FAQ

20 Frequently Asked Questions

about Shriners International and
Shriners Hospitals for Children

1. What is Shriners International?

The worldwide organization is a fraternity based on fun, fellowship and the Masonic principles of brotherly love, relief and truth. There are nearly 200 temples (chapters) located throughout the world.

2. What is Shriners Hospitals for Children?

Our unique health care system, which has locations in three countries, is dedicated to improving the lives of children by providing pediatric specialty care, conducting innovative research, and offering outstanding education programs for medical professionals. All care and services are provided regardless of the families' ability to pay.

3. What is Shriners International's connection to Shriners Hospitals for Children?

The fraternity founded and continues to support the health care system as its official philanthropy.

4. Where does the money come from to operate Shriners Hospitals for Children?

As a 501(c)(3) nonprofit organization, Shriners Hospitals for Children® relies on the generosity of Shriners, corporations and the general public to carry out its mission and improve the lives of children every day.

5. How can I learn more about supporting Shriners Hospitals for Children?

For information about ways to give to and support Shriners Hospitals for Children, please visit lovetotherescue.org or call 855-401-4897.

6. When was the first Shriners temple established?

Mecca Shriners was established in New York City in 1872.

7. Why does Shriners International have a Near Eastern theme?

Similar to college fraternities that use a Greek motif, in 1872, the organization's founders chose to model the iconography, regalia and theme of the fraternity after an Arabian-nights themed party one of them had attended while touring Europe. The Shriners' red fezzes (hats) and the costumes sometimes used in parades and ceremonies pay tribute to this long-standing tradition.

8. When and where did the first Shriners Hospitals for Children open?

We opened our first hospital in 1922, in Shreveport, Louisiana. The hospital initially focused exclusively on treating the orthopaedic aftereffects of the polio virus, which was rampant at that time.

9. What are some examples of the orthopaedic conditions treated at Shriners Hospitals for Children today?

Our health care system provides treatment for a full range of congenital and acquired orthopaedic conditions. The most commonly treated include clubfoot; limb deficiencies, deformities and discrepancies; scoliosis (curvature of the spine); osteogenesis imperfecta (brittle bone disease) and orthopaedic difficulties associated with neuromuscular disorders, such as spina bifida and cerebral palsy.

10. What are the principal service lines offered at Shriners Hospitals for Children?

Our care disciplines are pediatric orthopaedics, burns, spinal cord injuries, and cleft lip and palate.

11. When did Shriners Hospitals for Children begin to provide burn care?

Our locations specializing in treatment of burns and burn-related injuries have been leaders in burn care and research since opening in the mid-1960s.

12. What are some examples of expertise in burn care found at Shriners Hospitals for Children?

Our hospitals that treat burns and burn-related injuries provide comprehensive acute, reconstructive and rehabilitative care. In addition, a multidisciplinary team provides support to the patients and families as they transition back to school and family life.

13. When did Shriners Hospitals for Children begin to provide care for spinal cord injuries?

In the early 1980s, Shriners Hospitals for Children began the nation's first spinal cord injury rehabilitation programs specifically designed for children and teens.

14. What does the cleft lip and palate program at Shriners Hospitals for Children offer?

Patients with a cleft lip and/or palate are treated by a multidisciplinary team that creates individualized treatment plans to improve facial appearance, strengthen self-esteem and achieve optimal function.

15. What criteria determine a child's eligibility for care at Shriners Hospitals for Children?

Children up to age 18 are eligible for care at Shriners Hospitals for Children if there is a reasonable possibility they can benefit from the specialized services available. Acceptance is based solely on a child's medical needs.

“

“The Shriners organizations have been there for me just as much as my family ... I'll never be able to truly thank them for all they've done for me.”
