

A confidential small and growing restoration company based in Naperville is looking for an experienced water restoration professional.

Responsibilities and skills required for this position are as follows:

- Strong work ethic
- Ability to write standard Xactimate estimates and to work within program guidelines
- Computer skills
- Support field crews in day to day activities
- Working with field teams on a regular basis
- Working on call in this job description
- Must have a clean background, driving record and valid driver's license
- First response and on-call responsibilities

IICRC certification (ASD or AMRT) or other credentials are preferred but not required. For candidates with experience but without certification, the company can help underwrite training for the certs.

Compensation will be competitive based on experience and skills. The package could include take-home use of a company vehicle.

Please submit a resume and salary requirements in confidence to [8825986@gmail.com](mailto:8825986@gmail.com). All replies will be held in confidence.
